up close

## 2. Track your movement patterns with the GPX App using your phone:

Walk outside the SR Building towards your den.

The idea is that most of the 5 minutes you will spend recording your track, you will be closer to your den than to any other den.

You are allowed to move anywhere, just keep in mind you have only 5 minutes and you should be spending most the time at your den.

## **2. After 5 minutes, return to the classroom:**

After 5 minutes, stop tracking at the entrance of the SR Building
